OJ Microline App Available

DESCRIPTION

Introducing the TRM-FH Gold, a technologically advanced floor heating thermostat offering seamless remote accessibility through the OJ Microline® WiFi LED touch interface. With secure data transmission via TLS 1.3 encryption and support for the robust WPA3 protocol, users can confidently manage their heating system from anywhere.

This thermostat allows for versatile connectivity, including direct Bluetooth® control and cloud access, while the intuitive installation wizard ensures effortless setup and customization of temperature settings and floor protection features, providing optimal control and efficiency for any heating setup.
